Presentation	<ul style="list-style-type: none">The presentation of the technical document is organized and looks professionally writtenHeaders and titles can be easily identifiedSubheaders are easily identified and are not mixed up with the main headers	5
Total (Out of 16)		20

Comments/Improvements:

Blaine and Hunters technical documentation on Deep learning with MATLAB for shape recognition is very well written and explains the topic in detail. The pictures organized and provided extra clarity. The topic to me was already interesting to me. However, the technical documentation made more excited about deep learning.

Overall Grade:

20/20

A+
